Those who have heard the sweet sing or will have a life-long recollection of him, for he always sings himself into the heart. His power is marvellous; whether in the presence of the highest dignitaries of the nation, at the conference, prayer meeting, or Sabbath School, he charms alike, and rouses patriotism or devotion at will. Nor is he great alone on great occasions, before vast assemblies. He is as touching and as tender in the social circle, with a select and admiring few. I heard him on one occasion that I shall never forget. On the 1st of January, 1865, by invitation of the venerable Father Wright, then Chaplain of the Marines Hospital, I preached to the soldiers under his chargs. Whether the sermon was good or otherwise is not to our purpose, but the singing was all that could be desired, for Philip Phillips was there. After the services we accompanied the venerable Chaplain to the different wards, to see those whom wounds and disease prevented meeting us. We paused at the bed side of one, seemingly near his end, and found him aware of his condition and of one, seemingly near his end, and ound him aware of his condition and orepared for his great change. "Shall sing for you?" said Brother Phillips. The . ck in ... I sing for you?" said Brother Philips.
The ek man gratefully assented, and
soon with a pathos which only such a
scene could inspire, he was singing as
if the words came from the depths of
his soul, the beautiful hymn com-

mencing:

"Over the river I'm going.

Leyond where the pearly gates stand."

Tears stood in the eyes of the singer, and we who stood around in silence wept and the poor sufferer, as if the pearly gates were in sight, wept tears of joy. I never heard whether he recovered or not; his case was then deemed an hopeless one; but whether he is yet a pligrim on earth or a redeemed one in heaven, I feel assured that he never will forget the sweet voice that in the Marine Hospital he heard, singing "Oyer the river I'm going."

POLICE COURT. - Business in this

FREGULAR CONDUCT PRODUCED BY THE TEARING DOWN OF A HOUSE.

Cinderella Gray was charged with nutering loud and filthy language on the public street. It appeared that noticing, on Thursday, the gradually increasing exposure of the secrets of the rear portion of the Grant House to the "garish light of day," she concluded it would be an excellent thing if she could make her observations contribute to her own benefit. Accordingly she undertook the task, and would have accomplished it successfully had not one of the proprietors happened on the scene just in the nick of time.

What did Cinderella do, under the circumstances? Not exactly what a well regulated Christian onght to have done. But Cinderella do, under the circumstances? Not exactly what a well regulated Christian, it is true she is a "sort of a christian," but it is no part of her philosophy to turn the other cheek. What she did do was to give yent to the "loud and filthy language" charged by the prosecution. And she did this with such obstreperous yolubility that the gentlemanly proprietor of the Grant was fain to hand her over to the careful protection of the police. His Honor, in a fit of leniency, fined her one dollar and the costs.

THE EYIL EFFECTS OF A SMOKY CHIMNEY.

Mr. Andrew Comas, of Centre Wheel.

THE EVIL EFFECTS OF A SMOKY CHIMNEY Mr. Andrew Comas, of Centre Wheel-Mr. Andrew Comms, of Centre Wheeling, had rented a part of his house to Mr. John Clifford, a small man. The chimney of Mr. Clifford's portion of the house has an ugly habit of turning the smoke of his fire in the wrong direction. The persistent perversity of a contrary chimney is the most trying thing in the world to even a well disciplined mind, and we do not wonder that Mr. C. complained to his landlord. We should not have wondered if it had been developed before the Police Court, that this complaint was made in language strong complaint was made in language strong and forcible; particularly, as Mr. Co-mus' subsequent violation of the sanc-tity of domestic life, in following his there assaulting and battering his right organ of vision, in the presence of his wife and child, can be reasonably explained in no other way. Mr. Comas, at the time, had an open penknife in his hand, and seriously treatened to send Mr. Clifford to one or other of the places popularly supposed to be beyond the limits of the visible universe; and this is another reason for supposing that the latter gentleman's complaint was not of as mild a character as it should have been, coming from a tenant to his landlord. But, foregoing speculation, we conclude this case by stating that the Court imposed a fine of \$10 and costs upon Mr. Comas.

MISTOOK HIS VCCATION.

MISTOOK HIS VOCATION. George W. Nichols, a boy fifteen or kteen years old, was employed at glass factory somewhere in Centre his employers that his genius did not he in that line, and he could never attain eminence in the profession if he followed it till relentless age had changed his flaxen locks to gray. So the news was gently broken to him that he had better turn his attention to another means of livelihood, Believing that he could carry tumblers, &c., as well as any other living boy, he kept spending his leisure time about the factory, probably in hope of serial being

summary manner, but not seriously injured in the process. He made complaint, and Mr. Boyd was required to appear before Judge Good, who, after hearing all the evidence in the case, dismissed the

THEM'S CHURCH.—Through the kindness of Mr. Wm H. Sheib, we are enabled to publish the following particulars concerning the magnificent organ recently erected in the St. Matthew's Episcopal Church by Messrs. George

Jardine & Son, of New 1974:
After it was decided to have a su-perior organ in the church, the veatry placed the whole matter in the hands of Mr. Shalb, who has fully justified warm terms for the compliment paid him.

A bearry round of applanse greeted the close of Bro. Johnson's remarks.

The came is an elegant gold headed one, sultably inscribed. There are three tablets on it, on which are engraved an open bible, an anchor and a fountain.

The mounting and engraving was alone by Messra. Scott & Hennegan, and is highly creditable to their skill as artists.

PRILIP PHILIPS.—Those who love good music will not forget that this delightful singer is to be here on the 18th inst. The Western Christian Advocate

But although it is easy to secure compass and volume of sound, it is quite difficult to obtain that most important of all considerations in a musical instrument, goodness of tone. In both respects the St. Matthews organ is superb. The tone is round, full, grand—entirely free from the "squeally" tint so common in many organs; and the power of the instrument is Titanic. We congratulate our Episcopal friends upon their happiness in securing this noble organ.

In this connection we may state that the concert to be given in a few weeks, under the direction of the organist, Mr. Shelb, will fully test the instrument.

The White Pine Compound.

"It was early in the spring of '52 that this compound was originated. A men ber of my family was sfilleded with an Irritation of the throat attended with a disagreeable cough. I had for some months previous thought that a preparation having for its basis the inside bark of white pine might be so compounded as to be very useful in diseases of the throat and lungs. To test the velue of it in the case alluded to. I compounded a small quantity of the medicine that I had been planning, and gave it in teaspoonful doses. The result was exceedingly gratifying. Within two days the irritation of the throat was remove was effected. Soon after that I was person was effected. Soon after that I speedy out was effected. Soon after that I was remove was effected. Soon after that I was pendy on the suffering for some weeks from a bad cough, occasioned by a sudden coud, and had raised mucus streaked with blood. She soon found relief and sent for more. She took about ten ounces of it, and got well. J. R. Clarke, Esq., ed-for of the Manchester Dally Miffor, made a trial of the same preparation in the case of a severe cold and was cured immediately. He was so highly pleased with the results, and so confident of success attending its sales, if placed before the public, that he finally pursuaded me to give it a name, and sond it abroad to benefit the suffering. In November, 1855, I first advertised it under the name of white Pine Compound. In two years from that time there had been whole lars worth, where it took the lead of all the cough remedies in the market, and it sill son that the final compound is and the exceedingly cheap.

"As a remedy for kidney complaints the White Pine Compound stands unrivaled. It was not originated for that purpose, but a person in using it for a cough was not only cured of the cough, but was also cured of a kidney difficulty of ten year-standing. Since that accidental discovery many thousands have used it for the same complaint, and have been completely cured."

The above was written by Dr. Poland, in 1800. Since then, as in Manchester, the White Compound has taken the lead of all Cough resmedies, as well as a preparation for the word of the cough remedies, as well as a preparation for the word, villageney difficulties, in every city, town, village and states.

The remedy is as safe and pleasant to take as it is effectual.

> PETROLEO-CALCIUM GAS PETROLEO-CALCIUM GAS.
>
> ONE OF THE MOST VALUABLE IMprovements of the age is the process of manufacturing gas by the Petroleo-Calcium Gas Company, of Wheeling, West Va., upon patents of Dr. J. H. Connelly, from an almost valueless product of Petroleo-Calcium (residemen), in combination with lime, or lime and coal, so simple that two thousand feet of Gas may be made by any farm hand or stable boy of ordinary intelligence in three hours. It has been thoroughly tested upon such a scale, at the McLure House in Wheeling, and at the country residence of Mr. J. P. Gilchrist, near the same city, as to fix the certainty of its affording entirely satisfactory results in the production of small and large quantities of Gas, and can be with great economy applied to Private Residence, Seminaries, Motels, Factories and Citics. It is superior to any Gas now in use, not only as to the safety, simplicity, practicability and great cheapness of manufacture, but for its superior brilliancy, soft influence upon the sight, and freedom from the sulphurous odors common to Gas. These facts the officers of the company will take pleasure in demonstrating to those desiring to adopt or interest themselves in the company will sell rights to manufacture in Towns, Counties, Districts or States, and direct attention to the following

TESTIMONIALS: WHEELING, W. Va., Aug. 0, 1867. To the President of the Petroleo-Calcium Gas (2) To the President of the Petroleo-Calcism Gar Co SIE—We have thoroughly and carefully investigated the construction and workings of the apparatus for manufacturing Gas, ac-cording to your company's patents, and the combinations of materials used, as now working upon the McLure House in the city, and country residence of J. P. Glichrist, Esq., near this city. For simplicity, dura-bility, economy and safety, we consider it superior to any other method of manufac-faring Gas that we are acquainted with. We calcertully recommend its adoption by all Ggs consumers.
